Results-driven Information Systems Manager with over 18 years of experience in developing and implementing innovative programming solutions that optimize business efficiencies and drive revenue growth. Proven expertise in managing development teams, designing and delivering complex projects, and fostering vendor relationships to introduce cutting-edge technologies. A strategic leader with expertise in project management, clear communication, and a proactive approach to problem-solving.

## KEY ACCOMPLISHMENTS

- ✓ Spearheaded the development of a secure online client portal at AGFinancial, resulting in improved customer satisfaction and retention.
- ✓ Successfully launched an online investment application at AG Financial, processing over \$5M worth of investments within its first ten months.
- ✓ Established 417 Solutions, LLC, providing nationwide consulting services in full-stack development, programming and business consulting services.
- ✓ Managed the website presence for Dream Vacations, contributing to the company's position as the largest Apple Vacations' reseller in North America.

## SPECIALTIES

I specialize in project management, adeptly simplifying and solving complex problems. With clear communication, meticulous task prioritization, and proactive thinking, I consistently deliver high-quality results. My attention to detail and strategic approach contribute to successful project outcomes and a culture of excellence.

## WORK EXPERIENCE

### Information Systems Manager

2015 - Present

*AGFinancial*

I lead the IS department at AGFinancial in developing business efficiencies and revenue growth strategies through innovative programming solutions. Managing a team of developers, I oversee project pipelines and actively participate alongside my team in the development of key projects. Two of my successful projects include implementing a secure online portal for clients to manage their investments 24/7/365 as well as launching an investment application that brought in over \$5M worth of investments in its first ten months. I continue to work with various vendors in bringing new and exciting technologies and capabilities into AG Financial.

### Owner / Developer

2005-Present

*417 Solutions, LLC*

As the Owner and Developer at 417 Solutions, LLC, I have provided consulting services nationwide, specializing in full-stack development, programming and business consulting services. Over the years, I've cultivated a reputation for delivering comprehensive solutions to clients seeking to establish and enhance their online presence. In the last few years I've pivoted the business to a more creative direction and enjoy creating photography and media to help drive business growth in the construction and engineering space.

### Full-Stack Developer

2008 - 2015

*Dream Vacations*

During my 6+ year tenure as the Web Developer at Dream Vacations, I served as the sole developer managing the website presence for the largest Apple Vacations' reseller in North America. In this role, I coordinated with vendors to maintain a competitive edge in the Mexico/Caribbean travel industry, hosted web pages for hundreds of 5-star resorts and helped Dream Vacations book millions of dollars a year through online bookings. Technically speaking, I leveraged the LAMP stack and was actively engaged in both front-end and back-end development, ensuring a seamless and visually appealing online experience.

## Web Developer

2005 - 2008

*Central Bible College*

Managed Central Bible College's visual online presence, as well as created an intranet for students. ASP, SQL, Windows IIS & SharePoint.
