Web Developer, Programmer, Creative

EXPERIENCE

Web Developer & IT Support: July 2008-Current

Dream Vacations - Springfield, Missouri

- Developed and managed website: including graphical advertising campaigns, resort brochure creation, backend programming and database design
- Created marketing calendar and implemented/maintained an email marketing list of 30,000+ contacts, as well as the creation and sending of the email newsletters
- Produced several marketing videos for YouTube and website use
- Started Dream Vacations' social media presence, including Facebook page, Twitter integration and YouTube videos
- Continually managed multiple projects at once ranging from graphic design, detailed programming tasks, to proofreading & editing of blogs
- Managed IT infrastructure consisting of Windows 2003 server, switch, Linksys routers, several Windows 7 & XP workstations, laserjet printers, and a dedicated web server running Linux, Apache and MySQL

IT Technician / Webmaster: June 2005-July 2008

Central Bible College - Springfield, Missouri

- Created several mini-sites for departments on campus, which included creating different artistic/graphical styles for each, while maintaining the CBC brand
- Worked cooperatively with many different departments to give them the best service and quality of work they needed with print designs and websites
- Served as a college faculty member for a Web Design & Podcasting class

Owner / Programmer / Designer

Digital Solutions Studio - Springfield, Missouri

- Worked with many different clients performing email marketing, print design, website creation/maintenance and social media marketing
- Custom PHP and ASP programming using MySQL & Access ODBC connections
- Researched and implemented cost effective methods of doing business and marketing

Student Web Manager - CrusaderMedia, August 2003-May 2005
